About Us

Caswell Group Driving School (CGDS) held their first 8-Hour Driver Improvement Class in August 2020. One year later, CGDS held their first Driver Education class!

We are happy to serve all residents in Tennessee.

We are approved by the Department of Safety to offer 4 and 8 hour driver improvement, and adult& teen driver education.

Why Choose Us?

- Excellent and Professional Customer Service
- Engaging and Interactive Classes
- Caring and helpful employees
- Easy online registration and payment process
- Online scheduling software

About our Instructors

- Certified with the State of TN
- Most instructors have over 15 years experience as a Driver Education Instructor

Services Offered

8 Hour Driver Improvement

For individuals who are ordered by Tennessee Department of Homeland Security (TDHOS) to complete an 8-hour defensive driving course. This course is offered live stream on-line. A certificate of completion will be sent within 24 hours. Class schedules are listed on the website.

4-Hour Online

Our 4-hour on-line course can be used as a refresher course for drivers, study course for participants preparing to take the knowledge test, and/or a course to reduce points and/or insurance. Note: Not all insurance companies accept this certificate. Please check with your insurance provider.

Teen & Adult Driver Education

This class requires all students to complete 30 hours of classroom instruction and 2 hours simulator and 4 hours behind the wheel. This class provides the instruction needed to prepare students to pass the Knowledge test and State Road Test.

Simulator Training

Train on our multi-screen, pre-loaded simulator. Students will practice potentially risky situations in a safe environment. Here they are able to put safe driving practices learned during instruction into actual use.

Testimonials

My personal experience would be a 10 for everything. The class was very informing. I learned so much from this class and had a fund learning experience. At first I was thinking this class was going to be awful, but I actually learned so much that I didn't know before that will help me in the future with driving.

I enjoyed the class and how it was done. Everything was wonderful & the instructors were nice and friendly.

The biggest thing I took from this class is awareness of being behind the wheel because it affects more than just us one mistake or one time you think you got it could lead to a lot more than you can handle. I appreciate the opportunity; you will not be seeing me again lol but that's a good thing.

Today in class in I learned a lot of beneficial knowledge. The class was simply amazing. I learned so many new things that I didn't actually pay attention to while I drive. I am going to be 100% alert from here on out and driving the right way.

What I learned in this class is how to be a defensive driver while following the rule of conduct regarding my safety and other people on the road. I have learned the different types of risk and learned new ways on what to do in any type of situation that can occur with my car or during collisions with other vehicles. I have also learned the different types of distractions that can cause the driver to pay less attention on the road which is what I struggled with. Learning these new techniques and strategies would make me a better and more cautious driver moving forward.
